**2005.8.20 - 9.11**

**25000 Cultural Transmission Center, Beijing**

The oscillation between "pain and happiness" is the purlieu of He Jinwei, and while there are many types of "purlieus", they are all unable to escape the conditions of space and time. In He Jinwei's words, upon first coming to Beijing from Sichuan a few years prior, the "this type of bodily displacement brought with it the "changing of reality" in outside space.

On display is a 40 painting 3 year retrospective display of works by He Jinwei including the interior psychological spaces and urban lights, as well as portraits and monuments, together constructing a giant splendid and ordinary reality.
